A Testimonial From The President of Mulmer Services Ltd.

Paul Richey, President of Mulmer Services Ltd., operates a fleet of 25 buses ranging in size from 20 to 40 passengers. Mulmer Services specializes in customized shuttle bus services in the Greater Toronto Area. Since the fall of 2007 Mulmer has "gone green" with the conversion of its first three natural gas shuttle buses which refuel at retail Shell stations in the City of Toronto. "It is important to my customers that there are substantial and tangible environmental benefits from using natural gas as a fuel in our buses," says Paul.
